bioaiLAB

Arctic LLM Workshop 2023

LARGE LANGUAGE MODELS

| 27th | 13:30 - 16:30 |
| 28th | 09:30 - 17:00 |

October 2023

Location

Teknologibygget Tek 1.023
UiT Tromsø, Norway

Contact

Alexander Horsch
A philosophical view on LLMs

**Himanshu Buckchash**
LLM technologies

Aaron Celeste
Application development with LLMs

Abhinanda Punnakkal
Evolution of foundational LLMs

**Ronny Paul**
Parameter efficient finetuning in LLMs

Rohit Agarwal
Finetuning and ICL in LLMs

Ayush Somani
Alignment, Interpretability and Robustness in LLMs

Iqra Qasim
Prompting in LLMs

Nirwan Banerjee
High speed attention in LLMs

Suyog Jadhav
Large scale training of LLMs

Samir Malakar
Impact, challenges and limitations of LLMs

Dilip Prasad
Headway for LLMs

About

Join a two-day comprehensive workshop on LLMs under enchanting northern lights. Explore the evolution of LLM models, understand fine-tuning mechanisms, and be mesmerized by the power of prompts. Delve into the intricacies of alignment, interpretability, and robustness issues. Discover the high-speed and parameter-efficient LLM variants while understanding the challenges posed by large-scale training. Learn the nuts and bolts of LLM-based application development to stay updated in the world of LLMs.
